

Dear Parents and Guardians,

Stay continuously informed of your child's school data including class schedules, course grades, assignments, assessments, state test scores, attendance and behavior. CCPS has two ways for you to view and monitor this information, through the **FOCUS Parent Portal** and now also the **EDIS Family Portal**.

To access your child's data, find the link shown on your child's school website,

Parents & Students

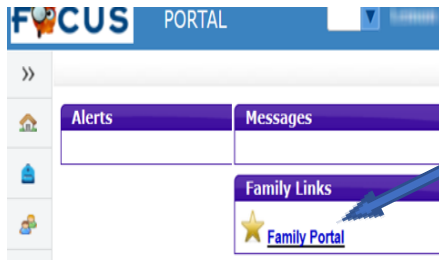

or under the Parents & Students link at **yourcharlotteschools.net**

Click here to login for student information.

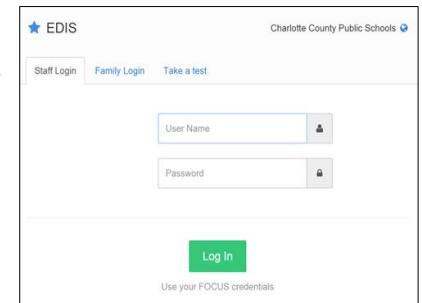

This link enables you to login to FOCUS to view your child's information.

Use your **FOCUS Parent Portal** login. This login remains unchanged.

On the home page of FOCUS, you may click the **Family Portal** link to login.

Choose "Family Login."

Your **Family Portal** login is identical to your **FOCUS Parent Portal** login.

Family Portal adds a visually appealing presentation combining current and past data, displaying overall student achievement throughout the years. **Family Portal** also provides access to other assessments used by CCPS separate from the **FOCUS** system. i-Ready and USA Testprep scores used to monitor student progress are displayed in **Family Portal**. This progress monitoring information is located in the *Academic* section under *Test Scores*.

Contact your child's school for your FOCUS Parent Portal login information.

To change your password at any time, log into the FOCUS Parent Portal and click the *My Information* menu and select *Preferences*. The *Password* tab will update both programs.

Google Chrome or Mozilla Firefox as suggested Internet browsers for both FOCUS and Family Portal.
